## New and Valuable Improvements in Manufacturing Harness.

WE HAVE BEEN ENGAGED FOR THE PAST three years in constructing a class of Metal Fastenings, attached to leather by copper studs, and upon thorough trial, they have proved to be just the thing for the trade, making a harness stronger, more durable, lighter in appearance, and much cheaper than the old method.

We are now prepared to put into the hands of a first-class General Agent for the State of Tennessee, a sure and easy way of getting some quick money.
